## Where are the RES Library collections?

RES fourth graders have been learning about our different library collections. Now that they know where the nonfiction and reference books are located, they can use them for their research projects. Teams of students completed a scavenger hunt where they found the different library collections. Once they found the collections, they videotaped each other to show their learning. We hope you enjoy the library tour! [Click here if video does not show on your phone or iPad](#)

## Virtual Author Visits in Your Library or Classroom

[DIRECTIONS FOR AUTHORS](#) ~ [DIRECTIONS FOR TEACHERS & LIBRARIANS](#)

It all started when author Mona Kerby visited [Grandview Library](#) in 2008 to talk to 2nd graders about her book [Owney, The Mail Pouch Pooch](#). In 2009, Ms. Kerby visited the [class](#) via Skype. The children and their teachers cheered when Ms. Kerby "appeared" on the Smart Board. Ms. Kerby talked about Owney and the process she went through to research, [write](#), and publish the book. Several of the children asked Ms. Kerby questions and the whole group enjoyed waving at and thanking Ms. Kerby for "visiting". The mission of the Skype an Author Network is to provide K-12 teachers and librarians with a way to connect authors, books, and young readers through virtual visits. Wouldn't it be great to invite authors into [your](#) classroom or library to [video chat](#) with [students](#) before, during, and/or after reading their books? We are growing a list of authors who want to make that connection with you via [Skype](#). Visit our [Skype Overview page](#) to learn more about Skype.

[Click Here to Read More Success Stories](#)
[Bruce Hale](#)- March 2015

The 3rd graders at Bethesda Elementary participated in their very first Skype session today with the author Bruce Hale and we could not be happier about choosing him to be our "pilot program" author. Bruce Hale has a great balance of humor and information in his presentation of how he became an author. The students

With Alternion you get much more than aggregation of your social profiles.

- You can view, comment and share your friends' updates, photos and videos from your favorite social networks.
- You can post your updates and photos to other networks.
- We import your personal updates from 220+ networks, so you can create and manage your entire online identity.
- You can see your contacts from other networks and their latest updates in your social address book.
- You can receive and send direct messages from Twitter.
- You can receive and send all of your email messages from any IMAP or POP account.

And also...

- Our search and robust filters make it very easy and efficient to discover interesting content from your social feeds. You can filter your news feed, photos and videos by service, content type and contacts, for example see all updates and content from your selected contact.
- You can see photos and videos in your Twitter news feed.
- You can browse and search best public photos and videos from Flickr, Picasa and YouTube, as well as like them, favorite, comment on them, etc.
- You can browse, search and follow other Alternion users, and find friends with the same interests.
- You can connect multiple accounts, choose between 'justified' and 'large' viewing options, upload photos and share them to other services, and much more.

And we're just getting started! There are many more exciting features in the works, so stay tuned. We're building a social communication center where you can stay in touch with all your contacts from other networks and access their latest updates and messages. We will keep you posted about new features in our **corporate blog** and newsletters.

Polls & Surveys?

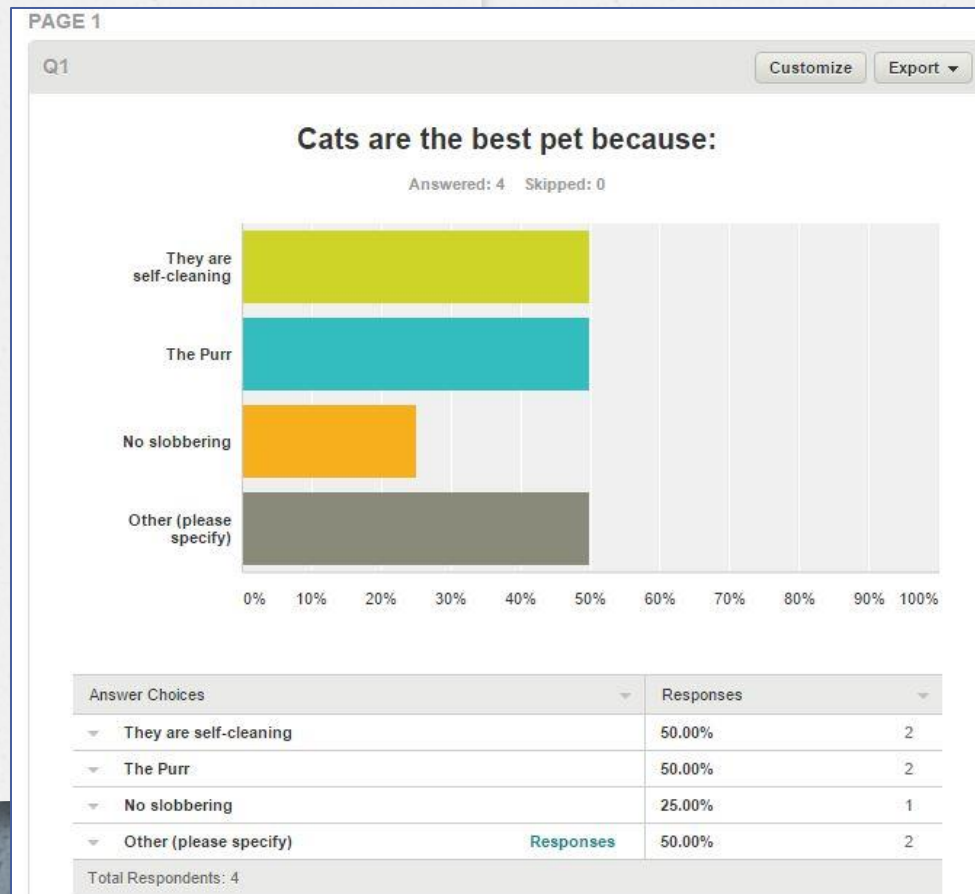

<http://surveymonkey.com>

You know the Monkey!

Online surveys.

Free accounts – up to  
100 responses.

\$300/year for unlimited.

<http://surveyanyplace.com>

Create surveys and polls using mobile-friendly responsive design, then embed them.

- Create surveys respondents can answer on their own devices, via your own mobile app, or at any point of service.
- Exportable data, including graphical.
- Some free options, others fee-based (monthly or annual). Additional options, more responses, etc.

- o All great for UX Surveys.
- o Keep it short – people respond to 1-3 questions.
- o Idea: Put it on an old iPad on a stand (or three) in your library.
- o Survey at point of service.
- o Engage! Capture!
